Helmut Weiler

I accepted with honour the invitation to judge the Croatia Split Show on September 25, 2010. Unfortunately, the organization did not get the same number of entries as they normally have in the years before. The reason for this was because that same weekend there was also the Rottweiler Club of Italy Klubsieger Show that took place. Of course, the Italian KS also has a lot of interest from people around the globe.

L-R: Best Male - Atos Miracle Rott & Best Female - Honda Schwarz Rott Garde

Ali Zara Cro Rott

In every class, I observed excellent representatives of the breed, who gave me an excellent picture. I did not have a lot of Rottweilers to judge, but in this show, the second-placed Rotts could have taken the first place. The Rottweilers were presented in a sportsmanlike, friendly style. They were well prepared for the show ring, and the handlers did a good job. This event was a good one for our breed. I want to thank again the organization. It was a very well-organized show and had the character of one big family feast!

On September 24, 2010, I had the task to judge the first Zuchttauglichkeitsprüfung in Croatia. There were 10 Rottweilers entered and 7 Rottweilers passed. The dogs made altogether a very good general impression. In the protection phase, sometimes only partly convincing work was shown. One could recognize the dogs who had trained and they were well-prepared. Some dogs had difficulty with measuring and weighing, however, the very good overall view was not disturbed. Participants and spectators have surely learned which what is necessary to prepare and train their dogs in order to obtain an optimal result. The ZTP test is the first step in the correct direction. A Rottweiler who is only a beautiful Rottweiler is not a complete Rottweiler.
